- Project Management
- Product Owner
- Scrum Master
- Quality Manager (ISO 9001 & 27001)
- Trainer for:
 - PEP
 - Jira/Confluence
 - ASPICE
 - Scrum Master and Product Owner
- Recovery Manager for Critical Suppliers

Aerospace senior consultant in Project Management

Professional Summary

Accomplished and versatile engineering professional with extensive experience in project management, product ownership, and quality assurance. Demonstrated expertise in mechanical engineering, eMobility, connected car technology and high-voltage integration. Proven track record of success in working with leading automotive and aerospace clients, driving innovation and ensuring compliance with industry standards.

WORK EXPERIENCE

Project Manager & Product Owner

- Led project management and product ownership initiatives for major clients such as Volkswagen, VW Commercial Vehicles, and CARIAD.
- Ensured quality management compliance with ISO 9001 and 27001 standards.
- Conducted training sessions on PEP, Jira/Confluence, ASPICE, Scrum Master, and Product Owner roles.
- Managed recovery processes for critical suppliers, maintaining high standards and continuity.

Connected Car Projects

- Developed early mobile routers and high-precision localization functions.
- Connected reference vehicles to backends for continuous data exchange.
- Implemented eCall as a vehicle function and developed OEM applications for vehicle control.

Emobility Project

- Supported green driving initiatives and evaluated driving behavior in the Chinese market for hybrid vehicles.
- Managed infrastructure charging trials from EUP to Passat GTE.
- Simulated batteries and tested cells for optimal performance.
